THE 17th GRAND ANNUAL STATE EX-HIBITION, to be held on the Waverly Fair Grounds, on September 20th, to 24th, promises to be one of best ever held in the State. Although times have been hard, and busines dull, for some time past, the State Society have shown a spirit of enterprise in preparing for the coming exhibition that is highly commendable. Instead of cutting down expenses by reducing their premiums, they have on the contrary added liberally, making a grand total of over \$12,000, is cash premiums, divided among the different departments, with judgment and discretion. The show of horses, horned cat-

tle, sheep, swine and poultry, will be larger than usual, and of a superior quality, Horticultural departments, will be well The while the Miscellaneous, Agricultural, and State. From what we know of these annual re-unions of farmers, at Waverly, we earnestly urge every farmer in the State to take a holiday, and with his family visit the grounds during the fair of the State Society.

Besides the display of all kinds of farm and garden products, the Society have at the urgent request of the "press" of the State, decided to have on one of the days not yet named, a "grand tournament," when the "Knights" of New Jersey can display their skill in horsemanship, before thousands of our citizens who will witness these feats. We can assure our readers this will be one of the most in teresting, instructive, and amusing pastimes that the State Society have ever intreduced on their grounds. Besides this we learn that there will be a balloon ascension from the grounds, the æronaut taking up with him four or five Jersey editors, who will take a bird's eye view of our State. On their serial journey we wish them God speed, and safe return to their homes and families.

Any of our readers, who desire to compete at the coming exhibition of the State Society, can have a schedule of premiums, by addressing the Corresponding Secretary, P. T. Quinn, Newark, N. J.

Westfield has a lately organized Fire Department which is equipped with a "Little Giant" engine. We notice in the local paper of that place, an account, of the first performance of the engine at Book a fire in the neighboring village of Cranford, where good service was rendered. Like Bloomfield, Cranford was without any protection from fire, and before the company which had been summoned from Westfield, could arrive, Miller's Hall and several out-buildings were destroyed, involving a loss of \$13,600. This occurred soon after midnight on the 11th ult. The Westfield Townsman says:

"The boys ran the truck down by hand, in 20 minutes, and five minutes after their arrival had a well-directed stream of water from the "Little Giant" on the burning buildings, which soon placed the fire under their control. The "Little Giant" worked splendidly, and more than performed the worked claimed for it; if Cranford had possessed one of these engines we feel confident that the fire could have been confined to the building where it commenced. The fire did not spread any farther after the arrival of the Westfield Company, although a large twostory dwelling, which stood between the fire and a row of frame houses, was scorched to blistering and was only saved by hard work. To obtain water in a sufficient quantity to work the "Little Gaint" efficiently, a line had to be formed from the burning buildings down to the Creek, (known as the Rahway River) and after a short, pithy oration Foreman Clark and Assistant Little succeeded in prevailing upon the youth of Cranford to vacate their roosting place on a rail fence near by, and assist the Department to pass water. The citizens of Cranford unite in expressing their warm appreciation of the services rendered by our Fire Company, and the members of the Department feel proud that the first time their services were required they have proved

The Celluloid Works, in Mechanic street, Newark, were destroyed by fire vicinity will find it to their advantage to on Wednesday evening, a terrific explosion taking place caused by the igniting of highly combustible material employed Office. in the manufactory. The two top floors were lifted as if by an earthquake and thrown into the street, several of the workmen who had been warned being hurled out and severly injured as they were attempting to escape. Hugh Carney, a plumber, who was at work in the building at the time of the catastrophe, has not been seen since, nor has he re- The Stephens & Condit Transportation turned home, and hence it is confidently believed that he lost his life. His body has not been recovered. The total loss is now estimated at \$160,000, of which the Celluloid Company loses \$100,000.

There seems to be a universal expression of indignation among citizens against the parties who are r sponsible for using such dangerous material as celluloid has proved to be in such a crowd- ROCKAWAY & OCEAN EXCURSIONS, ed neighborhood. It is alleged that the materials are the same as gun cotton and that the celluloid when manufactured, is OCEAN EXCURSIONS, highly inflammable.
